Regimen G Drug Science Q&A Webinar

Recording Now Available!

A screenshot of a YouTube video player. The video content shows the Denali Therapeutics logo at the top, followed by the text "Focused on developing treatments that make a meaningful difference for people and families living with ALS". Below this is a title card for "DNL343 (Regimen G) Background Information" presented by "Danna Jennings, MD, Denali Therapeutics Inc.". The video player interface includes a progress bar at 2:54 / 47:36, a volume icon, and various control icons. On the right side of the player, there is a vertical list of video thumbnails, with the top one showing Danna Jennings and the one below showing Merit Cudkovic.
